A. Description of Course Content

This course is designed to provide students with an understanding of and ability to use the evidence-informed practice process to identify, analyze and apply evidence-informed interventions. Students will be able to comprehend both quantitative and qualitative research and to synthesize strengths and weaknesses of the social work literature. Students will be able to synthesize and evaluate research in terms of its content, quality, and applicability to clients. Students will understand scientific and ethical approaches to building knowledge to apply to and evaluate the impact of interventions on clients or clients’ presenting problems.

B. Student Learning Outcomes

Section 2.1.3 Apply critical thinking to inform and communicate professional judgments. Social workers are knowledgeable about the principles of logic, scientific inquiry, and reasoned discernment. They use critical thinking augmented by creativity and curiosity. Critical thinking also requires the synthesis and communication of relevant information. Social workers:

1. Distinguish, appraise, and integrate multiple sources of knowledge, including research-based knowledge, and practice (Relevant assignments: Article Critiques, Research Proposal Paper)
2. Analyze models of assessment, prevention, intervention, and (Relevant assignments: Ethics Quiz, Article Critiques, Research Proposal Paper)

Section 2.1.6 Engage in research-informed practice and practice-informed research. Social workers use practice experience to inform research, employ evidence-based interventions, evaluate their own practice, and use research findings to improve practice, policy, and social service delivery. Social workers comprehend quantitative and qualitative research and understand scientific and ethical approaches to building knowledge.
Social workers:

1. Use practice experience to inform scientific inquiry and (Relevant assignments: Ethics Quiz, Article Critiques, Research Proposal Paper)
2. Use research evidence to inform practice. (Relevant assignments: Ethics Quiz, Article Critiques, Research Proposal Paper)

**Student Learning Outcomes**

1. Identify elements of an evidence-based practice model, the research process and social work research methods with application to the process of evidence-based practice and evaluation of social work practice and programs.
2. Use and critically examine existing literature with emphasis on issues regarding cultural diversity, gender, sexual orientation, and sensitive topics (i.e., social and economic justice, oppression, and populations at risk).
3. Apply relevant social, cultural, economic and other diversity factors in the selection of topics, the methods employed, the nature of analysis, and the conclusions drawn in the research endeavor.
4. Apply scientific methods to issues of concern for social workers, including how to formulate meaningful research questions, select appropriate research designs, develop and employ basic methods of data collection and conduct quantitative and qualitative analysis.
5. Use empirical studies as a knowledge base to support professional interventions and decisions for the enhancement of client well-being.
6. Interpret statistical concepts and present results as they apply to social work.

**C. Required Textbooks and Other Course Materials**

**D. Additional Recommended Textbooks and Other Course Materials**

**E. Descriptions of Major Assignments and Examinations**

**Research Proposal (35 points)**

Students will decide whether to form a group (maximum of 3) or complete the research proposal project individually. Students will report this decision with research title to the instructor at the beginning of the course schedule. For those who completed the assignments in a group, there will be a group evaluation after each assignment and the group presentation, and the results of the evaluation will be reflected in their grades.

Hand in list of group members (or individual) with research title:

- **Step 1:** Problem Statement (10 points)
- **Step 2:** Literature Review (10 points)
- **Step 3:** Methodology (15 points)

The research proposal can be quantitative or qualitative. The purpose of this assignment is to challenge students to integrate and apply a majority of the information that students will learn through this class over the course of the semester. Students will complete this assignment in three steps. After each step, students will get feedback within two weeks.

**All papers submitted for the research proposal should adhere to the guidelines set forth by the Publication Manual of the American Psychological Association 6th Edition. Relevant citation of the literature must be
evident in all written work. Grammar and APA style will be considered in grading.

**Presentation: (5 points)**

The individual/group will prepare a class presentation to present the final proposal (Student Learning Outcome 3-4). Research proposal should be logically and coherently presented. Please use PowerPoint for these presentations, but alternative software/formats, e.g. Presi, Youtube, etc. are also allowed. Groups are encouraged to incorporate video and other multi-media components into these presentations.

**Exams (40 points):** The exam is developed to test students' knowledge of the material presented in their reading assignments and classroom discussions. The test will be over everything covered during the semester. The format of the exams will be mixed, potentially including multiple choice, true/false, and essay. Prior to each exam the instructor will provide a study guide. (Student Learning Outcomes 1-3)

- **Midterm Exam: TBA (15 points)**
- **Final Exam: TBA (25 points)**

**IRB Human Subjects Training (5 points):** Social sciences research generally includes data obtained through the use of human subjects. Due to the sensitivity of this issue, all human subjects research conducted at the University must be approved by the school’s Institutional Review Board (IRB) before beginning. The major goals of the IRB are to minimize the risk to human subjects (beneficence); ensure all subjects consent and are fully informed about the research and any risks (autonomy); and promote equity in human subjects research (justice). Therefore, this course requires students to take the human subjects protection course by following the steps at [https://www.uta.edu/ra/real/loginscreen.php](https://www.uta.edu/ra/real/loginscreen.php). (Student Learning Outcome 3)

**Plagiarism Tutorial (5 points):** This tutorial is designed to make students aware of what constitutes plagiarism. This will assist them in avoiding plagiarism in their papers for this class and others.

1. Complete the tutorial available at [http://library.uta.edu/plagiarism/index.html](http://library.uta.edu/plagiarism/index.html).
2. Then, complete the quiz at the end of the tutorial.
3. Students may take the quiz multiple times. Only those who received 100% from the quiz will get the full points.
4. The tutorial provides students with an option to print their certificate. Please upload the certificate in the space provided in Blackboard.

**Weekly Quizzes Covering Assigned Readings (10 points):** Quizzes each week will be available on Blackboard and will coincide with each the assigned chapter for each week. Students will have 60 minutes to complete the quizzes. They may complete the weekly quiz at any time during the week, but once they have opened the quiz, they must complete it within the designated 60 minutes. Quizzes cannot be re-accessed once submitted. All quizzes will open up at 12AM CT on Wednesday and need to be completed by 11:59PM of Monday for each week. Ten quizzes will be given throughout the semester.

**F. Attendance**

At The University of Texas at Arlington, taking attendance is not required but attendance is a critical indicator in student success. Each faculty member is free to develop his or her own methods of evaluating students' academic performance, which includes establishing course-specific policies on attendance. However, while UT Arlington does not require instructors to take attendance in their courses, the U.S. Department of Education requires that the University have a mechanism in place to mark when Federal Student Aid recipients "begin attendance in a course." UT Arlington instructors will report when students begin attendance in a course as part of the final grading process. Specifically, when assigning a student a grade of F, faculty report the last date a student attended their class based on evidence such as a test, participation in a class project or presentation, or an engagement online via Blackboard. This date is reported to the Department of Education for federal financial aid recipients. As the instructor of this section,
Students are expected to attend all classes. Active participation in class discussion each week is considered as part of their grades. Although students may occasionally need to miss class due to illness or unexpected matters, missing more than 25% of the class contact hours in a semester may affect mastering the course content and be required to have further discussion with their professor and/or academic advisor.

**G. Grading**

Rubrics will be used to grade written assignments and class presentations. Students are highly encouraged to review rubrics located under Course Materials > Assignments before submitting assignments.

N. Emergency Exit Procedures

Should we experience an emergency event that requires us to vacate the building, students should exit the room and move toward the nearest exits, which are the stairwells located at either end of the adjacent hallway. When exiting the building during an emergency, one should never take an elevator but should use the stairwells. Faculty members and instructional staff will assist students in selecting the safest route for evacuation and will make arrangements to assist individuals with disabilities.

O. Drop Policy

Students may drop or swap (adding and dropping a class concurrently) classes through self-service in MyMav from the beginning of the registration period through the late registration period. After the late registration period, students must see their academic advisor to drop a class or withdraw. Undeclared students must see an advisor in the University Advising Center. Drops can continue through a point two-thirds of the way through the term or session. It is the student’s responsibility to officially withdraw if they do not plan to attend after registering. Students will not be automatically dropped for non-attendance. Repayment of certain types of financial aid administered through the University may be required as the result of dropping classes or withdrawing. For more information, contact the Office of Financial Aid and Scholarships (http://wweb.uta.edu/aao/fao/).

P. Disability Accommodations

UT Arlington is on record as being committed to both the spirit and letter of all federal equal opportunity legislation, including The Americans with Disabilities Act (ADA), The Americans with Disabilities Amendments Act (ADAAA), and Section 504 of the Rehabilitation Act. All instructors at UT Arlington are required by law to provide “reasonable accommodations” to students with disabilities, so as not to discriminate on the basis of disability. Students are responsible for providing the instructor with official notification in the form of a letter
certified by the Office for Students with Disabilities (OSD). Only those students who have officially documented a need for an accommodation will have their request honored. Students experiencing a range of conditions (Physical, Learning, Chronic Health, Mental Health, and Sensory) that may cause diminished academic performance or other barriers to learning may seek services and/or accommodations by contacting:

The Office for Students with Disabilities, (OSD) [www.uta.edu/disability](http://www.uta.edu/disability) or calling 817-272-3364. Information regarding diagnostic criteria and policies for obtaining disability-based academic accommodations can be found at [www.uta.edu/disability](http://www.uta.edu/disability).

Counseling and Psychological Services, (CAPS) [www.uta.edu/caps](http://www.uta.edu/caps/) or calling 817-272-3671 is also available to all students to help increase their understanding of personal issues, address mental and behavioral health problems and make positive changes in their lives.

regularly. There is no additional charge to students for using this account, which remains active even after graduation. Information about activating and using MavMail is available at http://www.uta.edu/oit/cs/email/mavmail.php.

U. Campus Carry

Effective August 1, 2016, the Campus Carry law (Senate Bill 11) allows those licensed individuals to carry a concealed handgun in buildings on public university campuses, except in locations the University establishes as prohibited. Under the new law, openly carrying handguns is not allowed on college campuses. For more information, visit http://www.uta.edu/news/info/campus-carry/

V. Student Feedback Survey

At the end of each term, students enrolled in face-to-face and online classes categorized as “lecture,” “seminar,” or “laboratory” are directed to complete an online Student Feedback Survey (SFS). Instructions on how to access the SFS for this course will be sent directly to each student through MavMail approximately 10 days before the end of the term. Each student’s feedback via the SFS database is aggregated with that of other students enrolled in the course. Students’ anonymity will be protected to the extent that the law allows. UT Arlington’s effort to solicit, gather, tabulate, and publish student feedback is required by state law and aggregate results are posted online. Data from SFS is also used for faculty and program evaluations. For more information, visit http://www.uta.edu/sfs.

W. Final Review Week

For semester-long courses, a period of five class days prior to the first day of final examinations in the long sessions shall be designated as Final Review Week. The purpose of this week is to allow students sufficient time to prepare for final examinations. During this week, there shall be no scheduled activities such as required field trips or performances; and no instructor shall assign any themes, research problems or exercises of similar scope that have a completion date during or following this week unless specified in the class syllabus. During Final Review Week, an instructor shall not give any examinations constituting 10% or more of the final grade, except makeup tests and laboratory examinations. In addition, no instructor shall give any portion of the final examination during Final Review Week. During this week, classes are held as scheduled. In addition, instructors are not required to limit content to topics that have been previously covered; they may introduce new concepts as appropriate.
