E. Descriptions of Major Assignments and Examinations

OTE: Please refer to our Blackboard course for session readings, course material, discussion topics, and quiz and assignment dates.

Assignments:

Discussion Board (10 points each). You must answer at least one of the discussion board questions posted for each session. In addition, you must post responses to at least two postings of your classmates. You may earn up to 10 points each session by participating in the discussion board. There will be 7 Discussion Boards, corresponding with the 7 Course Sessions of the 1st half of the semester. In order to earn the full 10 points in any given session, you must meet the following criteria: 1. Respond to at least one new discussion board question and comment on two postings from your classmates. 2. Demonstrate thoughtfulness and effort in your response. Note: Discussions will end on Sundays at 10 pm, and new discussions will begin on Mondays at 6 am. I encourage you to respond to other students’ postings and to participate in more than the minimum number of discussions required, as participation will generally enhance your understanding of the material as well as your overall experience in the course.

Quizzes (10 points each). There will be 3 short timed quizzes administered during the semester. The quizzes will be open-book, and you may access your notes as well as other resources to complete the quizzes. Each quiz will be worth a total of 10 points. On the weeks that a quiz will be required, it will be available from 6 am Monday morning until 10 pm Sunday evening.

Case Study (100 points). This assignment assesses outcomes #1-7.

Includes designated skill(s) or behavior(s) from: Educational Policy 2.1.1(a); Educational Policy 2.1.7(a-b);
Educational Policy 2.1.4(a-c)

Write a case study on a small group, community, or organization. (8-10 pages). (1) Apply 4 theories and 5 concepts from text material on the selected target. Analyze your target using the text and course materials. (2) Describe and illustrate ways in which the small group, community, or organization promotes or blocks the achievement and maintenance of health and well-being of participants.

OR

Write a case study on a child, young adult, midlife adult, or older adult. (8-10 pages). (1) Choose 3 theories and 5 concepts from the chapters in the micro text on your target life stage. Also use pertinent material from lecture notes. (2) Discuss the theories and concepts in detail and give examples of how the client demonstrates each theory, concept, and race, ethnicity, national origin, social class, religion, physical and mental ability, and sexual orientation. (3) Describe and illustrate ways in which social systems promote or block the achievement and maintenance of health and well-being for the target person(s).

Exams (100 points each). There will be two major tests in this course. You will have the option to complete 1) a quantitative exam, which will include various types of questions such as multiple choice, true/false, and short answer; or 2) a qualitative exam, which will include short essay questions. Both will be administered online and will be worth 100 points. Providing two different types of exams of equivalent value allows you as a student to make a choice about what type of assessment you prefer. If you choose to take both exams, only the higher score will count toward your overall point total.

F. Grading

Grades will be calculated as follows:

70 points--7 Discussion Boards at 10 points each
30 points--3 Quizzes at 10 points each
200 points--2 Exams at 100 points each
100 points--1 Case Study at 100 points

Total points possible=400 points

360-400 points=A
320-359 points=B
280-319 points=C
240-279 points=D
239 or below=F

Students are expected to keep track of their performance throughout the semester and seek guidance from available sources (including the instructor) if their performance drops below satisfactory levels; see “Student Support Services,” below.

G. Make-Up Exams

Please note: I do not accept late papers nor do I extend deadlines for missed assignments, tests, quizzes, or discussion boards.
H. Attendance

At The University of Texas at Arlington, taking attendance is not required but attendance is a critical indicator in student success. Each faculty member is free to develop his or her own methods of evaluating students' academic performance, which includes establishing course-specific policies on attendance. However, while UT Arlington does not require instructors to take attendance in their courses, the U.S. Department of Education requires that the University have a mechanism in place to mark when Federal Student Aid recipients "begin attendance in a course." UT Arlington instructors will report when students begin attendance in a course as part of the final grading process. Specifically, when assigning a student a grade of F, faculty report the last date a student attended their class based on evidence such as a test, participation in a class project or presentation, or an engagement online via Blackboard. This date is reported to the Department of Education for federal financial aid recipients. As the instructor of this section,

This online course requires weekly participation assessed through discussion boards and quizzes. This class is an 8 week class, condensing the content typically provided over the course of a 16 week semester into half the time. This means that you should plan to double the amount of time you spend in a typical week reading the text, watching online videos and reading online posts, and participating in assessment activities. This class will require a minimum of 10-12 hours per week of concentrated study time.
