2.1. Which attributes of the course and/or the professor helped you learn the material? (When the course is next taught, what should be done in the same way?)
- I loved Dr. Pillai's teaching style. Everything was up front and no surprises. Lots of information and he did the best considering how short the intersession class was.
- He wrote definitions on the board and reviewed for exams
- He clearly states his expectations

2.2. Which attributes of the course and/or the professor did not help you learn the material? (When the course is next taught, what might be revised?)
- The lecture method was a little overwhelming with the amount of information needed to learn in the short amount of time of the course. More class discussion would have made the class less dry, kept the class more engaged and made it easier to retain the information.
- He writes on the board which sometimes takes a while and makes it difficult to engage the material
