F. Attendance

At The University of Texas at Arlington, taking attendance is not required but attendance is a critical indicator in student success. Each faculty member is free to develop his or her own methods of evaluating students’ academic performance, which includes establishing course-specific policies on attendance. However, while UT Arlington does not require instructors to take attendance in their courses, the U.S. Department of Education requires that the University have a mechanism in place to mark when Federal Student Aid recipients “begin attendance in a course.” UT Arlington instructors will report when students begin attendance in a course as part of the final grading process. Specifically, when assigning a student a grade of F, faculty report the last date a student attended their class based on evidence such as a test, participation in a class project or presentation, or an engagement online via Blackboard. This date is reported to the Department of Education for federal financial aid recipients. As the instructor of this section, participation will be assessed as demonstrated by timely and sufficient access to various sections of the course in Blackboard correspondent to the course calendar.

G. Grading

**Calculating your Grade (After ALL assignments have been graded):** Find the “Total” in Blackboard Grade
Center and see where that number falls in the following grading scale below.

A = 270+ = Unusually good and outstanding performance; excellent
B = 240-269 = Very good performance; exceeds the acceptable standard
C = 239-210 = Adequate performance; meets the acceptable standard
D = 209-180 = Barely adequate performance
F = 179 and below = Unacceptable performance

Students are expected to keep track of their performance throughout the semester and seek guidance from available sources (including the instructor) if their performance drops below satisfactory levels; see "Student Support Services," below.

Each student’s feedback via the SFS database is aggregated with that of other students enrolled in the course. Students’ anonymity will be protected to the extent that the law allows. UT Arlington’s effort to solicit, gather, tabulate, and publish student feedback is required by state law and
aggregate results are posted online. Data from SFS is also used for faculty and program evaluations. For more information, visit http://www.uta.edu/sfs.
